# Set Based Updates – Type 1

- Set Based Updates – Type 1
- Pros
  - Scales well
  - Runs fast
- Cons
  - Requires extra tables in the database
  - Requires more setup work in the package

# Set Based Updates – Type 2

- Set Based Updates – Type 2
- Pros
  - Scales well
  - Runs fast
- Cons
  - Logic is somewhat complex
  - Requires extra tables in the database
